Edinburgh College is one of the largest colleges in Scotland, providing high quality education and training to around 23,000 students and businesses in the region and beyond.

Over 700 courses are delivered across our four campuses based at Sighthill, Granton, Milton Road and Midlothian.

The College offers a wide range of qualifications from entry to degree level as well as professional accredited training programmes with flexible pathways to enable students to achieve their study goals.

Schools College Partnership (SCP)

Our Schools College Partnership (SCP) offers a wide range of part-time college courses for S4-S6 pupils whilst still at school and provides greater choice in a variety of subjects which may not be available to them at school. SCP courses count as a column choice, which can be added into an existing timetable. Pupils come to college to study their SCP course two afternoons per week.

Doing a college course while at school will provide you with additional skills and qualifications to boost your employment prospects and enhance your CV, college or university application.

We work closely with universities and industry partners to inform and develop our curriculum to provide students with the best opportunities for employment or further study.

All SCP courses offer progression to full-time college courses. Our students study in industry approved facilities and many of our lecturers are industry experienced to ensure we also deliver the skills and knowledge our employers expect from the future workforce.

College offers a different learning environment which will enable you to develop skills and knowledge and build your confidence to support transition to employment or university.

We are committed to ensuring all students are prepared for a successful future and you will find all you need at college to help you get good results and achieve your learning goals.

Most Schools College Partnership Courses are studied at College on Tuesday and Thursday afternoons from 1.30pm – 4pm

FUTURE PROOF YOUR CAREER

The world of work is changing. 72% of Scottish employers think job applicants lack technical, practical or job specific skills. Skilled workers are in demand in key growth sectors and work-based learning is vitally important to prepare young people for the world of work.

The good news is that there are multiple learning options that provide a flexible pathway to your chosen destination. Work-based learning qualifications* are assessment based with no final exam and are offered at an equivalent level to Nationals and Highers. These are industry recognised qualifications and many have been co-designed with industry to ensure young people have the right skills to enter employment.

*see page 8 for more information on work-based qualifications

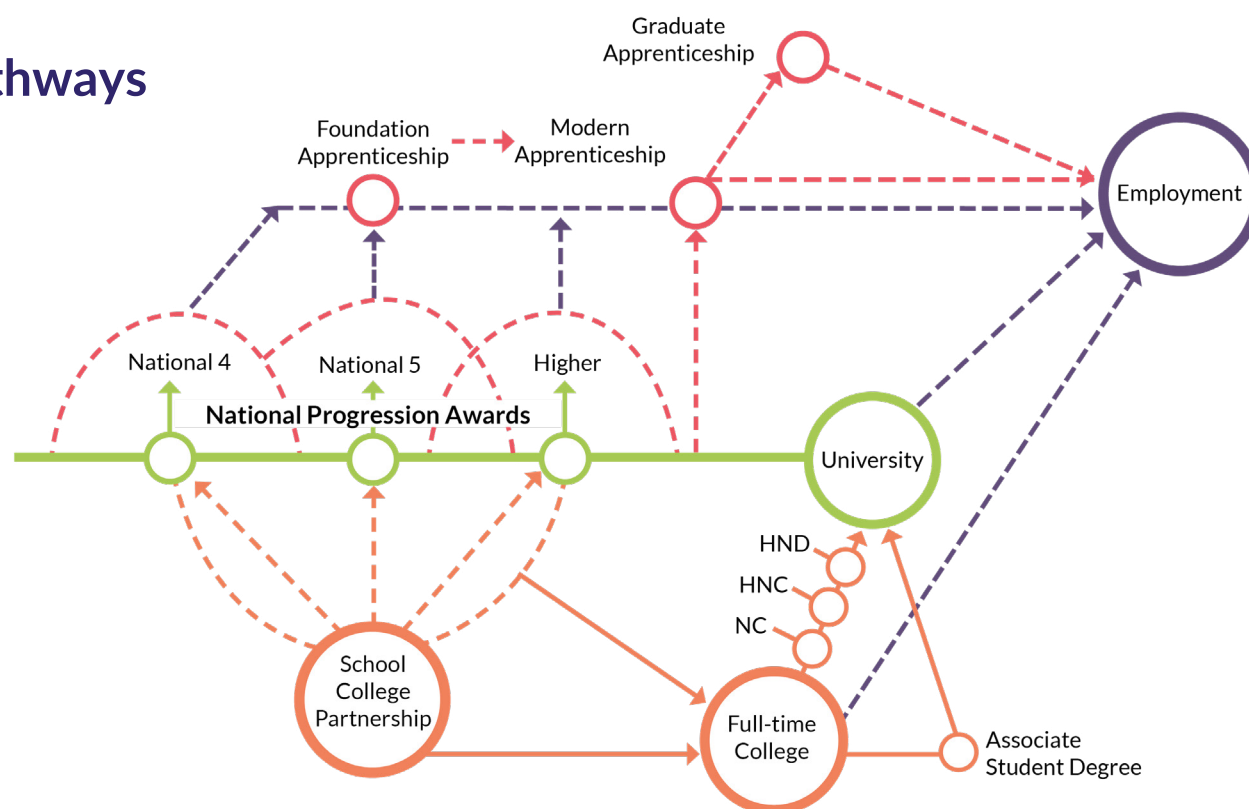

Why Choose College?

Colleges work in partnership with schools, universities, and employers to ensure the delivery of inclusive, high-quality and innovative learning and teaching meets the needs of industry and enables individuals to thrive.

Source Colleges Scotland key facts 2019

Pathways

COLLEGE PATHWAYS TO UNIVERSITY

Higher Education (HE) courses don't always have to be studied at a university. You can start your degree at college, or in some cases while you are still at school. College offers many of the subject areas you would expect from a university, and also delivers full honours degrees in a number of areas.

Colleges also offer a wide range of practical, vocational courses, such as Higher National Certificates (HNCs) and Higher National Diplomas (HNDs). These courses are mainly run in partnership with a university, and can enable students to progress to university with advanced entry at year 2 or 3.

College provides a high level of teaching and learning support for students on higher education programmes and provides a more nurturing study environment.

There are many benefits to studying your course at college, including:

- smaller class sizes
- flexible study options, including part-time
- more class contact hours and individual study support
- progression pathways to degree courses

If you are planning to study at university, it is a good idea to consider college as a pathway. One or two years studying at college can prepare you to succeed at university and you will also learn the practical hands-on skills employers are looking for.

For more information about full time college pathways contact Course Information on 0131 297 8300 (lines are open Monday to Friday 9am to 4pm), or drop into one of our Open Days. Visit our website to stay up-to-date with information about Open Days throughout the year.

Are you ready to apply?

For many young people this will be your first application to college so we would like to make sure you have enough information to feel confident about taking that step. Details of the courses available and full course information can be found on the following pages.

Before you apply

When choosing a course, you should always discuss this with your Guidance Teacher or SDS Careers Advisor. This is so they can:

- Advise you whether it is the right course and level for you
- Discuss how it will fit in with your plans and other studies
- Help with the online application process and personal statement

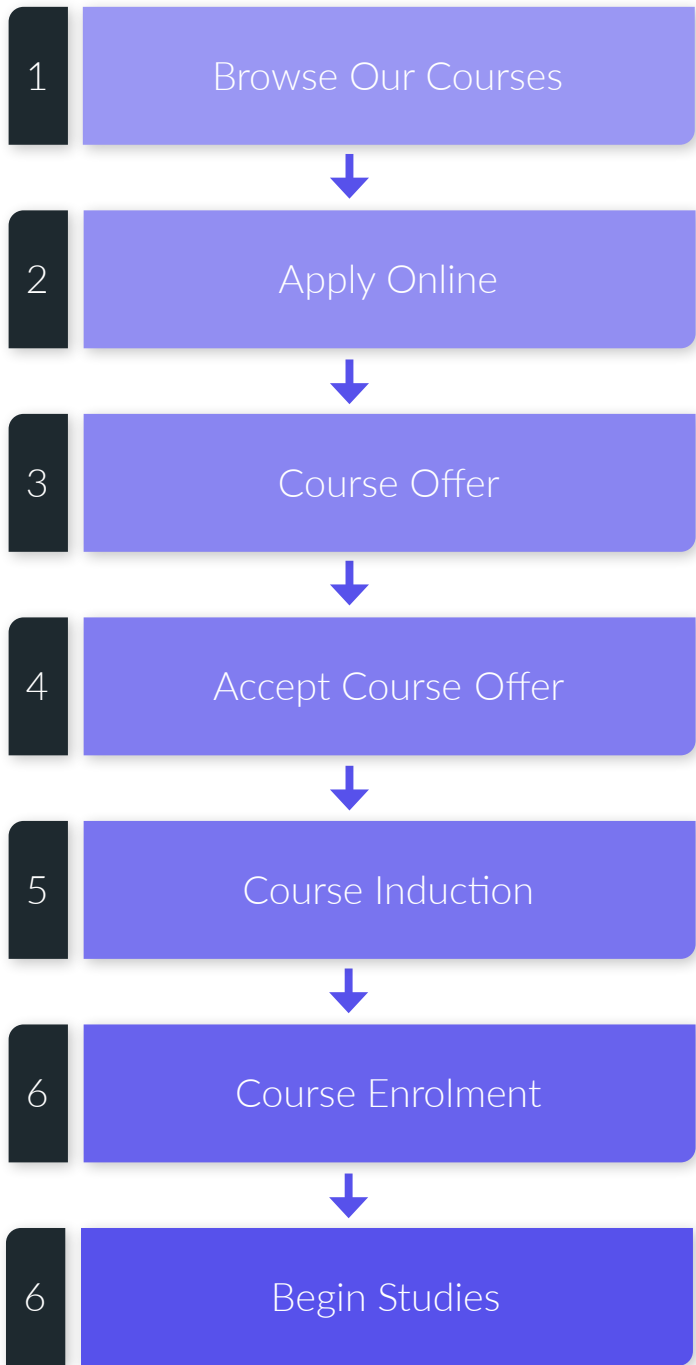

Some courses may require you to participate in an assessment or complete a task as part of the application process and this will be notified in advance so you have time to prepare. If you receive any support for learning at school your Guidance Teacher will complete a transition form which will support your application and inform college of any additional support needs.

What happens next?

If you receive a conditional or unconditional offer you will be invited to attend college for a mandatory course information and induction session. Arrangements for you to attend will be made by your school.

The Application Process

At Edinburgh College we welcome students of all ages, backgrounds and abilities. We understand that some students may require additional support with their learning to get the best out of their time at college.

Learning Support Process

1		<p>Your school Guidance (or other) Teacher will include details of any disability or additional support needs on the College Tracker. This information will be shared with your college lecturer(s). Examples include:</p> <ul style="list-style-type: none">■ Dyslexia■ Physical impairment■ Mental ill health■ Visual or hearing impairment
2		<p>Where required for external exams, your school Guidance (or other) Teacher will provide recommendations of adjustments that reflect the adjustments you access at school and provide evidence that is held such as:</p> <ul style="list-style-type: none">■ Letters■ Dyslexia screening report■ Certificates■ Educational psychologist report
3		<p>A member of Edinburgh College's Learning Support Team, along with the campus School College Partnership (SCP) Coordinator, will collate the information provided by your school to create a personal learning support plan (PLSP) for use by external examination boards. Once you have signed this and any relevant paperwork, the information will be shared with your college teaching team.</p>
4		<p>Our Schools Team will support you to achieve your learning goals and a dedicated Schools Co-ordinator will be available on the campus you are studying to assist with anything you need.</p>

UNDERSTANDING SENIOR PHASE QUALIFICATIONS

Edinburgh College offers a range of industry accredited work-based learning qualifications across a wide variety of subjects which provide the skills employers are looking for. These qualifications are delivered at equivalent levels to Nationals and Highers and are recognised by employers. Work-based learning courses are assessment based and can be studied alongside other school subjects to develop a pathway to employment or further study.

Foundation Apprenticeships (FAs)

Foundation Apprenticeships are work-based qualifications lasting two years (or in some cases, one year). Pupils begin their Foundation Apprenticeship in S5 (and for some in S6). They will spend time out of school attending college and completing a work placement with a local employer. Foundation Apprenticeships are completed alongside other school subjects like National 5s and Highers. Completion of an FA leads to a qualification at SCQF level 6 (the same level as a traditional Higher) and allows progression to employment or training programs such as a Modern or Graduate Apprenticeship.

Foundation Apprenticeships are recognised as entry qualifications by all Scottish colleges and universities.

Higher National Certificates (HNCs) and Higher National Diplomas (HNDs)

Higher National Certificates (HNCs) and Higher National Diplomas (HNDs) are work related or vocational Higher Education qualifications. They are highly valued by employers and are accepted for entry to many university degrees.

Many universities will allow progression directly into year two or year three of a degree course on successful completion. This is known as 'progression with advanced standing'. HNCs and HNDs can also count towards membership of professional bodies and other employer organisations and can be used for entry to Graduate Apprenticeships.

Institute of the Motor Industry (IMI)

IMI offers the widest available range of motor industry qualifications and assessments in Scotland. These qualifications are designed to help individuals prove their skills and competence, and achieve their career ambitions.

The IMI is approved to offer these qualifications by the Scottish Qualifications Authority (SQA). This approval means IMI Awards are compliant with SQA Accreditation's Regulatory Principles and Directives.

National Progression Awards (NPAs)

National Progression Awards are industry approved work-based learning qualifications at Nationals and Higher equivalent levels. They provide skills and knowledge in specialist vocational areas and are highly valued by employers. NPAs are assessment based and students are not required to sit a final exam.

Personal Development Awards (PDAs)

Personal Development Awards (PDAs) aim to help learners become more independent and to develop their potential as contributing members of their societies. Learners will develop self-reliance, self-esteem and confidence through supported and independent learning.

Skills for Work Awards (SFW)

Skills for Work courses focus on generic employability skills needed for success in the workplace. The courses offer learners opportunities to learn these skills through a variety of practical experiences that are linked to vocational areas. Skills for Work courses help young people to develop their self-confidence. They also aim to provide a very positive learning experience. A chance to work on practical skills that relate to the world of work provides real benefits to learners.

Vocational Training and Charitable Trust (VTCT)

The Vocational Training and Charitable Trust is the leading specialist awarding organisation in the UK for qualifications in Hairdressing and Beauty both within the UK and Internationally. All VTCT qualifications are mapped to UK regulatory frameworks and are recognised by international employers, governments and professional associations.

SCQF QUALIFICATIONS TABLE

The Scottish Credit & Qualifications Framework (SCQF) is a way of comparing Scottish qualifications. It covers achievements such as those from school, college, university, and many work-based qualifications. It does this by giving each qualification a level and a number of credit points. The level of a qualification shows how difficult the learning is. The credit points show how much learning is involved in achieving that qualification.

The SCQF helps you make sense of qualifications and plan the next stage of your learning journey. You can also compare vocational and more traditional qualifications and see that, although they are very different types of learning, in many cases they sit at the same SCQF Level.

Parents and Carers can access further information on the SCQF here: scqf.org.uk/support/support-for-learnersparents/support-for-parentscarers/

Scottish qualifications are delivered at SCQF level 1-12. Course awards include National Progression Awards (NPAs), Skills for Work Awards (SfW) as well as National Certificates, (NCs) Higher National Certificates (HNCs) and Higher National Diplomas (HNDs).

SCQF Levels	SQA Qualifications				Qualifications of Higher Education Institutions	Apprenticeships & SVQs

A Foundation Apprenticeship prepares you for the world of work and gives you more choices when you leave school:

Go straight into a Career

You will get real-life work experience with top employers

Gain the skills employers want

Fast track onto a Modern Apprenticeship

Learn on the job

Get valuable industry experience

You will complete units from a Modern Apprenticeship which will give you a head start

Fast track on to a Modern Apprenticeship by completing parts of the qualification during your Foundation Apprenticeship studies

College or University

Gain an industry accredited qualification alongside your school studies to enhance your college or UCAS application

Progress to college to study a HNC or to university to study a degree in a related subject.

Foundation Apprenticeships are recognised by all Scottish universities as an equivalent to a SQA Higher and can often offer direct entry into an HNC in a related subject.

A Graduate Apprenticeship

Take your studies to a higher level. You will already have experience learning through work

Earn while you learn

What is a Foundation Apprenticeship?

Foundation Apprenticeships (FAs) are work-based qualifications for senior-phase secondary school pupils in industry sectors of key growth. It's a qualification that takes you out of the classroom and gets your foot in the door with an employer. You can choose a Foundation Apprenticeship as one of your subjects in S5 or S6, it's the same level of learning as a Higher (SCQF Level 6).

How does it work?

A Foundation Apprenticeship counts as one of your S5 course choices and it takes two years to complete. Pupils typically attend college two afternoons per week in year one and undertake an extended work placement with a local employer in year two. It is the responsibility of the College to organise work placements. You will be also involved in employability activities such as talks from employers, industry challenges, site visits, mock interviews and CV workshops! One year delivery option might be available for selected courses.

Who is the FA for?

Foundation Apprenticeships are designed for pupils entering S5 who are capable of learning at Higher level, enjoy learning in a practical way and want to develop their skills, experience, and knowledge in a real work environment.

Pupils applying for the course should be those that wish to continue until the end of S6, as a Foundation Apprenticeship is a two year programme.

Is there an exam at the end of it?

No, there is no final exam at the end of the course. You are assessed on a unit by unit basis and will achieve the qualification by obtaining a pass in each unit assessment. You will complete a portfolio of work during your placement and you will have a workplace mentor to guide you. The portfolio will be marked by a workplace assessor provided by the college.

How do I get to and from the college?

Your travel to and from college and work placement is fully funded. Travel will be arranged by your school and Local Authority and paid for by Skills Development Scotland.

Why should I study a FA?

- Try out a career path while you are still at school
- Boost your CV or UCAS application with real industry experiences
- Develop transferable skills like leadership, teamwork, communication to enable you to better meet the demands of undergraduate study and the world of work
- Get a foot in the door with some of Scotland's biggest employers
- Make industry contacts and receive career guidance from an industry mentor
- Step into an exciting and growing industry that needs skilled people

Where could it take me?

- University - all Scottish Universities recognise FAs as equivalent to SQA Higher.
- College - FAs give you direct entry or count as entry criteria to HNC courses at all Scottish Colleges.
- Modern Apprenticeship (MA) – you could progress on to a MA where you will be employed and paid to complete a Scottish Vocational Qualification (SVQ). As the FA includes SVQ units from the MA syllabus you will already have a head start.
- Graduate Apprenticeship (GA) – you could progress on to a GA where your employer will pay for you to study for a degree.
- Direct Employment – with your FA qualification and work experience you are more attractive to employers.

How do I apply?

Applications open online in February. If you're interested, talk to your Guidance Teacher or Career Adviser at school to discuss if this is the right route for you.

To find out more information about each course or to submit an application, please visit the Edinburgh College website:

To find out more about Foundation Apprenticeships please visit Apprenticeships.Scot.

At Edinburgh College our students come from far and wide. Every student that comes to the College has a unique story to tell and helps make us who we are. We have students who achieve amazing things at the College. We define amazing as not

only achieving awards or accolades, but overcoming personal and social challenges while achieving your dreams. Below are real students who were happy to share their amazing stories.

Michael Suttie – IT: Software Development Apprentice

Eighteen-year-old Michael recently completed a Foundation Apprenticeship in IT Software Development, which he decided to undertake so he could develop his computing skills, and make contacts working in the industry.

“ I decided to do the FA in IT Software Development as a way to further develop my skills in computing, become better connected with those in the industry and get a feel for computing in the working environment. I’m currently enrolled on the HND Software Development Course at the College’s Sighthill Campus. Where I end up after that, whether it be university or work, I’ll need to see closer to the time. ”

Cameron Smith – Financial Services Apprentice

Seventeen-year-old Cameron completed a five week work placement at Scotia Wealth Management, which he says has been incredibly valuable experience.

“ Choosing the apprenticeship in place of a subject offered me a chance to get an insight into the world of work which traditionally wouldn’t have been possible through school. It was definitely a good decision – I’ve really broadened my knowledge of the financial industry. ”

The apprenticeship has not only given Cameron knowledge of the financial industry but also helped him decide the career path he wants to follow.

SCHOOLS COLLEGE PARTNERSHIP (SCP) FREQUENTLY ASKED QUESTIONS

Who can apply for these courses?

SCP courses are open to S4-S6 pupils. Places are limited and some courses will require you to participate in a selection process that includes an assessment or task to support your applications. You will also be required to attend a mandatory induction information session or transition event before your course starts. Your Guidance Teacher will be able to assist you with the application process.

You should:

- Be interested in the course and have the appropriate entry requirements
- Be prepared to participate fully in the course
- Adhere to the College Student Agreement

When will I attend College?

You will attend College alongside, and as an equally important part of, your school studies. Most of the courses run on a Tuesday and Thursday afternoon from 1.30pm till 4pm. Please check the college website for confirmation of days and times.

Regular attendance at College is vital to ensure you successfully complete your course and achieve your qualification. This information is shared with your School. You will be required to catch up with any work missed to due to absence.

What kind of support will I get when I'm at College?

The Schools Team is here to help and support you during your time at college to make sure that you are happy with your chosen course choice and on track to achieve your study goals. There is a Schools Co-ordinator on each campus and this person is your main point of contact when you are at college. It's important to attend your classes regularly and keep in touch to let us know if you have any problems or concerns during your time in college as we are here to help and support you to succeed.

If you receive support at school your Guidance Teacher will provide us with information to help with your transition to college.

How do I travel to College?

You will agree travel arrangements with your school, ensuring that you arrive on time for your College class. Please speak to your Guidance Teacher to discuss transport options.

How will I be assessed at College?

Assessments vary depending on the type of course you are studying. Most vocational training programmes are monitored by ongoing assessment of the subject areas covered by your course. Your Lecturer will identify key points throughout the year when assessment will take place.

Subjects which have SQA final exams will follow the normal SQA exam timetable. Dates and arrangements will be notified by your course lecturer.

How will I know how I am doing on the course?

Your lecturer will provide your school with regular reports on your progress throughout the year. You will also be able to get and update on your progress by speaking with your lecturer.

How will the course be certificated?

Qualifications gained through the Schools College Partnership Programme are structured and assessed in the same way as school qualifications and in most cases will appear on your SQA certificate in August, alongside your school subjects. Some courses are industry specific qualifications and will be certificated separately.

Where can I find out more information?

For further information speak to your Guidance Teacher or Skills Development Scotland (SDS) advisor. Alternatively you can email the Schools Team: schools@edinburghcollege.ac.uk

EQUALITY, DIVERSITY AND INCLUSION

Edinburgh College is committed to equality of opportunity and to a culture that respects difference. We are committed to providing an inclusive ethos and environment, where everyone feels welcome, supported and respected.

We believe that, as an employer and public body, we can play a leading part in the promotion of equality and

diversity more widely. We recognise that equality of access to education is crucial in unlocking many significant opportunities in life. We aim to help remove barriers and advance equality for groups who experience disadvantage in our society.

The Creative Industries faculty offers a variety of courses which help prepare students to stand out from the crowd in their chosen field, be it art and design, broadcast media and photography, music and sound production, performing arts or computing. From budding artists and filmmakers to up-and-coming performers and software engineers,

we have a range of pathways to further study or employment. Classes are taught in purpose built facilities by industry experienced lecturers who have established relationships with employers to ensure our students are equipped with the skills employers need.

Facilities

- Film studios with infinity coving
- Music recording studios
- 96 seat auditorium at Milton Road
- 120 seat auditorium at Sighthill
- 110 seat studio theatre at Granton
- Music rehearsal rooms
- Practice booths
- AVID editing suits for TV production
- Dance studios
- Digital audio suite
- Make-Up Studio
- The Faculty also has its own TV Channel and Record Label

EC Student Stories

Ruairidh – Music

Ruairidh came to college after having a difficult time at school. He studied for five years, completing his education with a first class honours degree in Popular Music. Ruairidh now travels the world as a musician on cruise ships.

“Studying at Edinburgh College gave me the confidence and the courage to be ambitious with my musical goals and I am forever grateful to the staff for their knowledge and guidance.”

Lewis – Broadcast Media

Lewis said his experience at College changed him as a person.

“Edinburgh College has given me opportunities I didn't think were possible as a student.

In his time at the College, Lewis has been a camera operator at Knockhill, made videos for the Scottish Social Services Awards and produced and directed a video for the Scottish Parliament.

In comparison to my previous education there's so much more support and equipment. I would highly recommend Edinburgh College to any student who is looking to study television.”

EC Student Stories

Samantha – Art and Design

Samantha is a graduate of the College's Foundation and HND Contemporary Art Practice courses who went on to gain direct third-year entry onto Glasgow School of Art's Sculpture and Environmental Art course. In June 2019 Samantha graduated with a First Class Honours Degree and is currently working alongside staff and students as our Art and Design Artist In Residence.

Andrew – Performing Arts

Andrew studied at PASS and went on to the Royal Conservatoire. He has played leading parts on TV and in theatre, including James II in the highly acclaimed National Theatre of Scotland production The James Plays.

“PASS gave me the tools to go into an industry that requires discipline, determination and a love of what we do.”

Computing

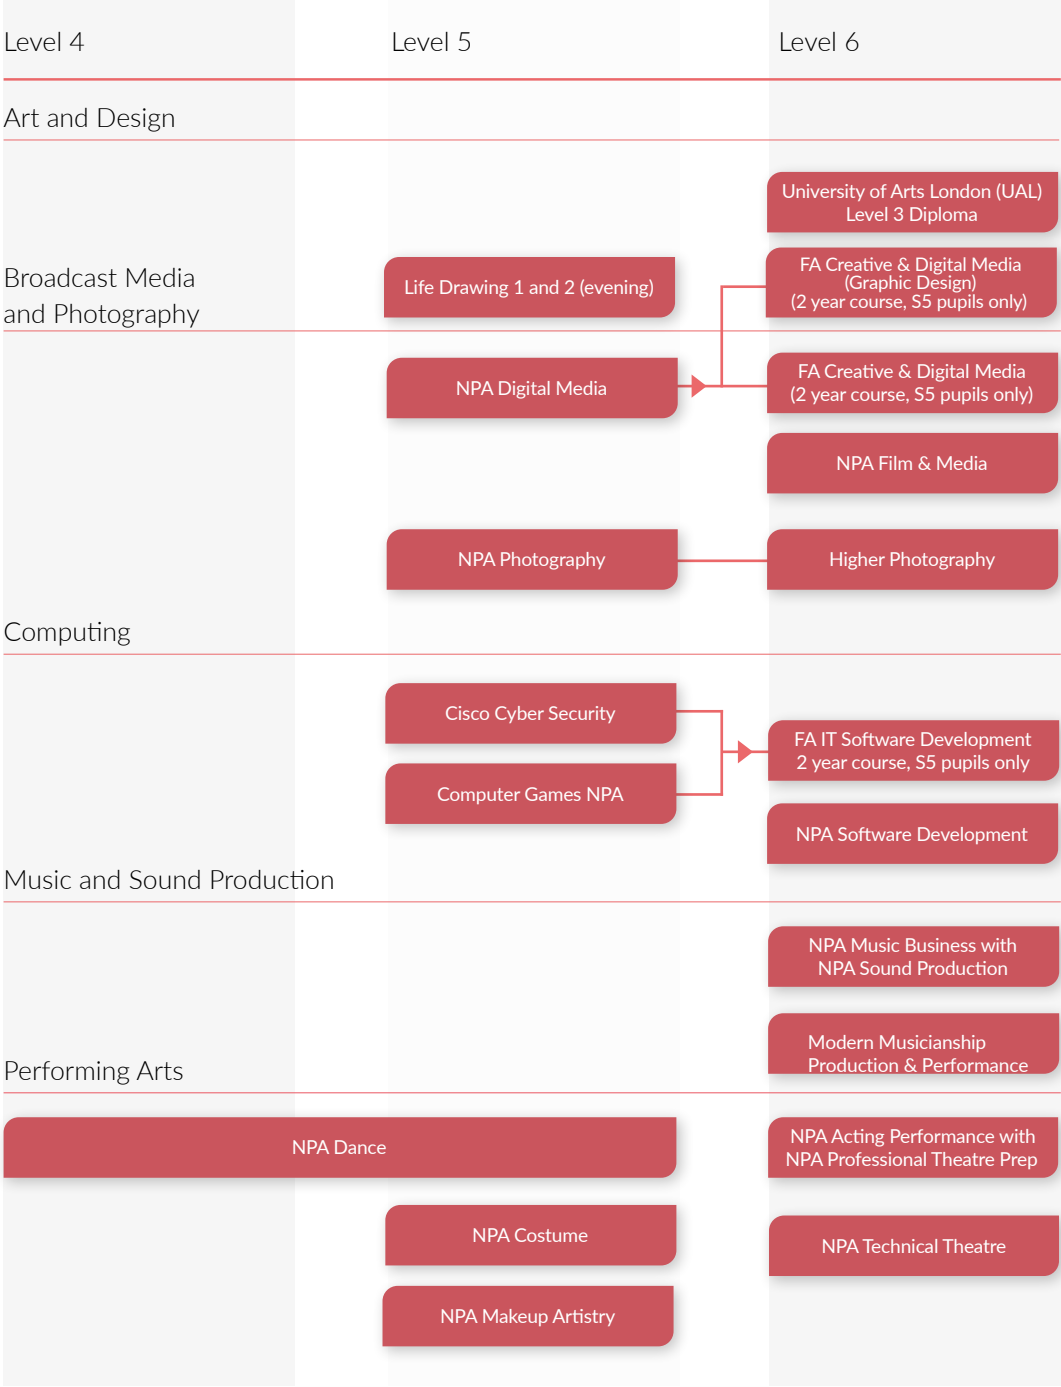

More than 100 students from Edinburgh College teamed up with Global Treasure Apps to create a series of interactive digital app trails for major tourist attractions across Scotland. Global Treasure Apps connects technology, the classroom, local history, the environment and literature through fun, clue-driven trails created, written and produced by students.

Creative Industries Course Progression

→ Progression

For progression to college full-time courses see online course information.

Art and Design

The School of Art and Design is one of the largest of its kind in the UK with over 700 students. It has a strong reputation for progressing students into both degree-level study and employment in the creative industries.

Our students regularly present their art and design work in exhibitions at industry nights in venues across Edinburgh. Our graduate diploma shows in 2019 were held at The City Art Centre, The Fruitmarket Gallery and Edinburgh Sculpture Workshop. All Schools College Partnership courses offer progression pathways to full time programmes.

Does this suit me?

- Creative collaborator
 - Practical maker
 - Conceptual thinker
 - Curious and playful
 - Change embracing
 - Creative communicator
- Innovator
 - Visual thinker
 - Imaginative
 - Experimental
 - Creative problem solver

Potential occupations

- Art Director
 - Art Educator
 - Painter
 - Printmaker
 - Sculptor
 - Animator
 - Illustrator

 - Product Designer
 - Interior Designer
 - Games Artist
 - Graphic Designer
 - UX Designer

Life Drawing 1 & Portfolio Building

SQA Units SCQF Level 5 Granton Campus Wednesday evening
September Evening class - available to school pupils over 16

This course will make sure pupils showcase their best work to support College and UCAS applications for Art and Design based courses. Pupils will have the opportunity to explore a variety of approaches, media and techniques working from the life model focusing on drawing. This class lasts 12 weeks.

Life Drawing 2 - Portfolio Building Expressive Drawing

SQA Units SCQF Level 5 Granton Campus Wednesday evening
January start Evening class - available to school pupils over 16

This course provides the perfect opportunity for pupils to further develop their drawing skills and strengthen their portfolio for successful UCAS and College applications. Pupils will learn both expressive and analytical drawing approaches and receive Lecturer advice regarding portfolio development. This class lasts 12 weeks.

Foundation Apprenticeship Creative & Digital Media with Graphic Design

Foundation Apprenticeship SCQF Level 6 Granton Campus Tuesday and Thursday afternoons

S5 PUPILS ONLY
Suitable for pupils going into S5 who are capable of learning at SCQF Level 6 and interested in a career in Graphic Design. Two year course.
Students undertake an extended work placement in year two.

Broadcast media & photography

If you are interested in outside broadcasting, audio visual technology, film and television, radio, digital media or photography (still and moving image), our exciting range of programmes will provide the specialist training you require.

We offer courses that include multi-camera live capture and vision mixing, scriptwriting, directing, presenting, editing, lighting and sound to prepare you for a career in television or video production.

Our teaching in radio includes presenting, interviewing techniques, sound and audio programming, newsroom operations, scripting and live streaming production. We also offer training in audio visual technology, so you can gain technical expertise in cabling, camera operations, TV, studio and location production set up, lighting, editing, multi-media sound and track recording for broadcast. Outside Broadcast students are offered paid commercial work experience with clients such as Scottish Football, Scottish Motor Sports, Scottish Gymnastics and Scottish Social Services.

Our photography programmes cover digital capture, retouching, studio, portraiture, fashion, food, landscape, advertising, corporate, photo journalism and social. You will have opportunities to work on live industry projects as well as exhibiting your work within the department and at end of year shows. All Schools College Partnership courses offer progression pathways to full time programmes.

Does this suit me?

- Innovative thinker
- Creative problem solver
- Team worker
- Adaptable to new technology
- Skilled at working to deadlines

Potential occupations

- Camera Assistant
- Production Assistant
- Audio-Visual Technician
- Sound Assistant
- Media Journalist
- Photographer
- Image Editor
- Photography Assistant
- Retoucher

Digital Media Editing NPA

National Progression Award SCQF Level 5 Sighthill Campus Tuesday and Thursday afternoons
SENIOR PHASE PUPILS

This course will allow pupils to develop technical skills in the creation and editing of digital media but also recognise the importance of planning and design. Pupils will also have the opportunity to follow a development lifecycle from planning through to design and then on to creation and editing. It will also enable pupils to experience a contemporary technological subject and gain skills that can be used in future employment.

Film and Media NPA

National Progression Award SCQF Level 6 Milton Road Campus Tuesday and Thursday afternoons
S5 & 6 PUPILS

The NPA in Film and Media will give pupils an insight into working in areas such as film, TV and the visual arts. The course is made up of a mixture of practical and theoretical units building from initial ideas to working on productions. Pupils will explore job roles in the media industry and meet and work with other like-minded young people. Applicants will be required to undertake a task as part of the application process

Foundation Apprenticeship Creative & Digital Media

Foundation Apprenticeship SCQF Level 6 Sighthill Campus Tuesday and Thursday afternoons
S5 PUPILS ONLY

Suitable for pupils going into S5 who are capable of learning at SCQF Level 6 and interested in a career in the Creative Industries, particularly in Television, Film Industry, Media and Audio Visual. Two year course.
Students undertake an extended work placement in year two.

Photography Higher

Higher SCQF Level 6 Sighthill Campus Tuesday and Thursday afternoons
S5 & 6 PUPILS

This course includes the technical and creative aspects of photography. The course comprises a series of units covering basic camera controls and use of research skills and digital imaging. These skills are then combined in the thematic course project.

NPA Photography

National Progression Award SCQF Level 5 Sighthill Campus Thursday and Tuesday afternoons
THIS COURSE IS FOR SENIOR PHASE PUPILS WHO ARE STILL AT SCHOOL
This course will develop knowledge and understanding in practical photography. The Awards are aimed at those who want to explore their interest in photography and perhaps take it to a more advanced level.

COMPUTING

Whether you have got what it takes to code the next big app, or you are a future innovator of computer science, there is a Computing course here at Edinburgh College to suit you. You can study everything from web design to desktop support, networking and games development. Our courses are taught by experienced and certified lecturers. You will be able to master the skills required for careers in digital media, 3D printing, programming, networking, robotics and games development. All Schools College Partnership courses offer progression pathways to full time programmes.

Does this suit me?

- Logical thinker
 - Problem solver
 - Good at maths
- Team worker
 - Creative

Potential occupations

- Network Engineer
 - Software Engineer
 - Data Analyst
- Web and Multimedia Developer
 - Games Developer

Foundation Apprenticeship in Information Technology: Software Development

Foundation Apprenticeship SCQF Level 6 Sighthill Campus Tuesday and Thursday afternoons
S5 PUPILS ONLY

Suitable for pupils going into S5 who are capable of learning at SCQF Level 6 and interested in a Computing. Two year course. Students undertake an extended work placement in year two.

NPA Software Development

National Progression Award SCQF Level 6 Midlothian and Sighthill Campus Tuesday and Thursday afternoons

S5 & S6 PUPILS
Discover the world of software development as you are introduced to core industry concepts and skills in web and software development. This course is designed to be used as a progression towards further study of specialist web development or Software development course at the college. You will gain an up-to-date award taught by industry-experienced College lecturers and learn a diverse range of knowledge in; computer programming for apps with python or JavaScript, and web development with HTML and CSS As part of the course you will build your own website and an App.

Cisco Cyber Security Essentials NPA

National Progression Award SCQF Level 5 Sighthill Campus Friday Afternoons
SENIOR PHASE PUPILS

If you are interested in a career in IT, Software Development, Cyber Security or Computer Networking, then this course is a great place to start. CISCO, the largest global tech infrastructure company, which to businesses in the sector is a household name for quality graduates. Computing and Technology is one of the biggest growth areas in the job market today and is one of the most exciting and subject diverse sectors to work in.
Outwith core school timetable.
Applicants will be required to complete a task as part of the application process

Computer Games with IT Software NPA

National Progression Award SCQF Level 5 Milton Road Campus Friday Afternoons

SENIOR PHASE PUPILS
This course provides a pathway to the Foundation Apprenticeship in IT Software and will provide a range of vocational skills and life skills, such as computer programming and problem-solving skills. The qualification will also improve pupils' computational thinking skills, a competence which is increasingly recognised as vital in the 21st century. Pupils who wish to progress to a Higher National Certificate (HNC)/Higher National Diploma (HND) in Computer Games Development will require further study at a higher level and a complementary maths qualification.
Outwith core school timetable.
Applicants will be required to complete a task as part of the application process

Music & Sound Production

Edinburgh College offers full-time, comprehensive courses in music, music business and sound production, from entry level to degree level. Our lecturers and instrumental/vocal tutors are experts in their fields, providing you with excellent teaching in a broad range of subjects. We welcome students from all kinds of musical backgrounds, and give you exposure to a rich variety of experiences and possibilities within our courses. Our students perform in some of the city's top venues, including the Usher Hall, Queen's Hall, Voodoo Rooms, Festival Theatre, Liquid Rooms, St Andrew's and St George's West, Old St Paul's, and the City of Edinburgh Methodist Church. All Schools College Partnership courses offer progression pathways to full time programmes.

Does this suit me?

- Good communicator
- Independent worker
- Team worker
- Confident
- Adaptable
- Creative

Potential occupations

- Performing Musician
- Instrumental/Vocal Teacher
- Sound Engineer/Music Producer
- Music Business Professional
- Music Teacher
- Sound Designer

Modern Musicianship (Performance & Production) NPA Live Performance

National Progression Award SCQF Level 6 Sighthill Campus Tuesday and Thursday afternoons

S5 & S6 PUPILS

Project-based based course involving working in a band or small group to plan, arrange, rehearse, record and perform a programme of music in a chosen style.

In addition to learning how to re-arrange existing material learners will collaboratively write and arrange an original song which will also be recorded and performed.

This will involve working in rehearsal rooms, DAW suites, auditorium and studio settings with a completely practical focus.

Applicants will be required to submit audition tapes as part of the application process

Music Business NPA with Studio Recording NPA (Two level 6 NPA Qualifications)

National Progression Award SCQF Level 6 Milton Road Campus Tuesday and Thursday afternoons

S5 & S6 PUPILS

This course will provide an introduction to working in the areas of music business and sound production. Due to the closely linked nature of these two subjects and their ongoing economic growth in the creative industries, the course provides an excellent opportunity to gain a grounding in this area of employment by taking part in projects involving the creation and marketing of musical products. pupils will learn both creative and technical processes in sound production including composition, MIDI sequencing, editing, arranging and mixing. In addition to this pupils will learn about a range of job roles and organisations in the music industry, methods for promotion and distribution, branding and marketing. The course is taught by industry experienced lecturers in sector leading facilities. These include 5 SSL studios and 4 TOFT studios, over 10 fully equipped rehearsal rooms and a 100+ seat auditorium.

Applicants will be required to undertake a task as part of the application process

PERFORMING ARTS

Edinburgh College is home to Performing Arts Studio Scotland (PASS), one of the country’s largest and most respected centres for training in the Performing Arts. Whether you aspire towards a career in acting, dance, technical theatre, make-up artistry, costume production or design, PASS is a great place to kick start your career.

Within PASS you will find a purpose-built theatre and dedicated rehearsal studios. These professional facilities make PASS the perfect place to showcase your talents. We deliver exciting performances throughout the year, giving all specialisms the chance to put their learning into practice. We have a dedicated team of experienced lecturers who work closely with the industry to ensure our students are given the best opportunity to develop and progress. We regularly invite industry experts to deliver workshops. Our aim is to create the next generation of performers, creative practitioners, stage managers, musical theatre artists and technicians to ensure a robust and exciting cultural

future. We will help guide you towards your future career goals, whether that is going straight into employment, or on to higher education at universities such as the Royal Conservatoire or other prestigious institutions. All Schools College Partnership courses offer progression pathways to full time programmes.

Does this suit me?

- Resilient
- Empathetic
- Adaptable
- Resourceful
- Collaborative
- Highly committed
- Philanthropic
- Professional

Potential occupations

- Performer
- Director/Choreographer
- Make-Up Artist
- Production Designer
- Theatre Technician
- Theatre/Dance Education
- Costume Maker

Acting & Performance NPA with Professional Theatre Preparation NPA (Two level 6 NPA Qualifications)

National Progression Award SCQF Level 6 Granton Campus Tuesday and Thursday afternoons
S5 & 6 PUPILS

This course gives pupils the opportunity to study at college and gain a qualification and a range of experience in Acting and Performance and Theatre Preparation. The aim is to help pupils make an informed choice for future options after school regarding the Performing Arts. The course provides the opportunity to achieve two National Progression Awards (at SQCF Level 6)

Theatre Costume NPA

National Progression Award SCQF Level 5 Granton Campus Tuesday and Thursday afternoons
S5 & S6 PUPILS

This course will introduce pupils to techniques that are important in the costume design sector. It develops practical, technical and transferable skills and gives the opportunity to build skills and portfolios for progression to next level courses. There will be a kit cost of £15 per student.

Dance NPA

National Progression Award SCQF Level 4 & 5 Granton Campus Tuesday and Thursday afternoons
SENIOR PHASE PUPILS

This is an introductory qualification in Dance in which pupils will explore choreography and gain an appreciation of dance skills and techniques. It allows pupils to develop knowledge, understanding and skills in choreography and different styles of dance. Applicants will be required to attend a workshop as part of the application process

Make-up Skills NPA

National Progression Award SCQF Level 5 Granton Campus Tuesday and Thursday afternoons
S5 & S6 PUPILS

This course will provide candidates with skills in the key aspects of make-up with a focus on specific make-up styles. There will be a kit cost of £35 per student. Applicants will be required to complete a task as part of the application process

Technical Theatre NPA

National Progression Award SCQF Level 6 Granton Campus Thursday afternoons
S5 & S6 PUPILS

This course will introduce pupils to techniques that are important in Technical theatre. It develops practical, technical and transferable skills and gives the opportunity to build skills for progression to next level courses. Learners will get the opportunity to to work on productions and support live shows which may be outwith school timetable

The Engineering, Construction & Built Environment faculty provides students with an opportunity to learn and develop their craft in a realistic working environment, under the guidance of industry experienced lecturers.

We work closely with employers to ensure our courses provide students with the relevant skills they need to progress to further study or employment.

Facilities

- Automotive training workshops including a dedicated paint and body teaching space
- Electric Car Fleet
- Engineering, Welding and Fabrication workshops
- Pneumatics Laboratory
- Centre for Renewable Energy at Granton
- Simulated Oil Rig Platform
- Painting and decorating centre
- Solar meadow training centre
- Specialist multi-trade teaching rooms

EC Student Stories

Citroën C1 Racing Team

A group of Edinburgh College Automotive students got their first experience of life in the racing world in 2019 after playing a key role in supporting a Scottish team to get track-ready. Transport Maintenance students converted a Citroën C1 road car into a race car for Tom Denham Racing

to compete in the Scottish C1 Cup at Knockhill Race Circuit. As well as converting the car, the students play a part in race day maintenance and testing – finding out what life as a race day mechanic is like – and ensuring the team has the best possible chance of winning.

Alizah – Built Environment

HND Civil Engineering student Alizah attended a major industry conference in Singapore to showcase a design project she has worked on since she was at school.

Alizah was part of a team which won the first ever Future Infrastructure Challenge: Design Engineer Construct (DEC) Hyperloop hosted by Bentley Systems and Class of Your Own in 2019.

The challenge saw pupils and students from across the UK tasked with conceptualising a design of a Hyperloop high-speed transport system and stations for Singapore.

Alizah won a complimentary trip to Singapore to attend Bentley Systems' annual Year in Infrastructure Conference.

Built Environment

Our courses give you the practical skills to work in areas like architectural technology, civil engineering, and construction management. Whether you want to design buildings, learn how to build bridges or manage construction projects, our technical building courses will get you ready for working in the construction sector. This includes giving you a creative background, science and maths skills, knowledge of materials and understanding of new building technologies.

We work closely with the Chartered Institute of Building (CIOB), Institute of Civil Engineers (ICE) and the Chartered Institute of Architectural Technology (CIAT). This means you will have the opportunity to be a student member of these

professional institutes while you study. The benefit of excellent industry connections, facilities and teaching at Edinburgh College sees over 80% of our students go on to study at university. All Schools College Partnership courses offer progression pathways to full time programmes.

Does this suit me?

- Creative
- Adaptable
- Team player
- Work on own initiative

Potential occupations

- Architectural Technician
- Construction Manager
- Civil Engineer Technician

Electrical Skills - SQA Units

SQA Units SCQF Level 4 Granton Campus Tuesday and Thursday afternoons
SENIOR PHASE PUPILS

This course provides the perfect platform for pupils who are interested in becoming an electrician to develop the essential skills and knowledge. pupils will learn hand skills, electrical theory and wiring techniques which are based around a domestic setting. There will be a kit cost of £20 per student. Applicants will be shortlisted based on personal statement. Shortlist will be required to attend a workshop as part of the application process

CONSTRUCTION

Our course offering includes all elements of brickwork, plastering, roofing, stonemasonry, carpentry and joinery, and painting and decorating to prepare you for working in the construction industry. While studying at Edinburgh College you will benefit from realistic working environments. All of our courses provide a qualification designed to prepare you for employment, career development or progression to further study. You may also have the opportunity to work on real projects which relate to the tasks you could expect to find in the industry.

We work with training providers including the Construction Industry Training Board (CITB) on our apprenticeship courses as well as supporting pre-apprentices into employment. We also support students through regional and national competitions. Past students have won several World Skills and UK Skills Awards and our qualified teaching staff have developed regional, national, and international skills champions across several disciplines, including stonemasonry and brickwork.

Does this suit me?

- Good with hands
- Team worker
- Logical thinker
- Enjoy practical work
- Good communicator

Potential occupations

- Bricklayer
- Carpenter or Joiner
- Plasterer
- Painter & Decorator
- Roofer
- Stonemason
- Highway Maintenance professional

Construction NPA

National Progression Award SCQF Level 4 & 5 Granton Campus Tuesday and Thursday afternoons
S4/5 PUPILS

This course provides the opportunity to try a variety of trade disciplines.

The main focus is on developing good hand tool skills and employability skills. There may also be opportunities for work placements and visits to building sites.

Pupils can study towards level 4 or 5 SQA units, depending on ability.

There will be a kit cost of £45 per student.

Applicants will be shortlisted based on personal statement. Shortlist will be required to attend a workshop as part of the application process

Automotive Engineering

Edinburgh College is a leading provider of automotive and mechanical engineering. Automotive programmes on offer range from classic vehicle restoration, vehicle accident repair, transport maintenance and advanced vehicle diagnostics. Our students learn about the design, manufacture, operation and repair of a wide range of vehicles.

The purpose built Automotive workshops and lecture rooms at Sighthill and Midlothian campuses provide students with all the necessary resources to engage fully in their chosen programmes of study. As well as our full-time courses we offer modern apprenticeship programmes in light vehicle, heavy vehicle, paint and body repair and parts. Apprentice training programmes enable individuals, already employed within the motor industry, to engage in knowledge and competence based learning which builds towards an SVQ 3 modern apprenticeship qualification. Many of our former students have progressed into senior roles as master technicians and service managers. We provide bespoke

training to the automotive industry on subjects as varied as hybrid/electric vehicle maintenance, air conditioning (F-Gas) and electrical diagnostics. So, whatever pathway you choose our courses will give you the innovative skills to place you ahead of the competition. All SCP courses offer progression pathways to full time courses.

Does this suit me?

- Automotive enthusiast
- Problem solver
- Environmentally conscious
- Critical thinker
- Ability to analyse data
- Team player

Potential occupations

- Light Vehicle Maintenance & Repair Technician
- Heavy Vehicle Maintenance & Repair Technician
- Paint & Body Technician
- Motorsport Engineer
- Service Advisor

Introduction to Motor Vehicle Industry : Paint & Body Repairs

Edinburgh College accredited units SCQF Level 4 MidlothianCampus Tuesday and Thursday afternoons
SENIOR PHASE PUPILS

The course is delivered in our specialist Automotive workshops and units have been developed to include the latest paint & body techniques which are in demand by employers. Pupils will study Certificated Edinburgh College units and will undertake an exciting project which will enable them to apply the skills and techniques they have learned.

There will be a kit cost of £20 per student.

Introduction to Motor Vehicle Industry & Technology (SCP)

Edinburgh College accredited SCQF Level 4 Sighthill/Midlothian Campus Tuesday and Thursday afternoons
units
SENIOR PHASE PUPILS

Introduction to Motor Vehicle Industry & Technologies provides a hands-on practical learning experience and is ideal for young people who are interested in a career in the automotive industry.

The course is delivered in our specialist Automotive workshops and units have been developed to include the latest electric & hybrid vehicle technologies which are in demand by employers. Pupils will study Certificated Edinburgh College units and will undertake an exciting automotive project which will enable them to apply the skills and knowledge they have learned. Successful completion of this course will guarantee progression to a full-time course in this discipline.

There will be a kit cost of £20 per student.

Engineering

Edinburgh College is at the forefront of modern engineering, offering an exciting range of courses which are designed to respond to the needs of the industry. You will study a range of subjects across a variety of engineering disciplines, covering subjects such as thermofluids, pneumatics and hydraulics to engineering principles and engineering system analysis. You will use simulation and design software to solve engineering problems in a wide variety of fields including the Energy, Manufacturing and Transport sectors. Practical fitting activities including milling and turning, CAD, CNC machine modelling and all disciplines of welding and cutting are also taught. Courses are delivered at all levels by our qualified engineers to develop the workforce of the future.

Whether you choose mechanical engineering, energy and environmental engineering, heating and ventilation, fabrication and welding or measurement and control we offer a range of training levels to meet your individual needs. We provide clear progression routes to degree level studies through partnerships with some of Scotland’s leading universities. To prepare you for your future career,

you will study in real life working environments using the latest industry technologies. We are particularly proud of our innovative facilities, including a Digital Control System (DCS) with process control, wind turbine testing facilities, a virtual welder and an immersive hybrid reality simulator, which ensures that your training is relevant to the industry of today. All Schools College Partnership courses offer progression pathways to full time programmes.

Does this suit me?

- Oil, Gas and Renewables Energy Technician
- Technology Development Engineer
- Heating, Ventilation and Air Conditioning (HVAC)
- Engineer
- Aeronautical, Maritime or Motor Sport Engineer
- Remotely Operated Vehicle (ROV) Operator
- Scaffolding Design Engineer

Skills for Work Engineering Skills National 5

Skills for Work National 5 SCQF Level 5 Midlothian Campus Tuesday and Thursday afternoons
SENIOR PHASE PUPILS

This course will provide the broad practical skills base needed in engineering manufacture systems and processes. Pupils will develop the skills and knowledge necessary for basic engineering processes and maintenance working on a range of engineering systems including fitting using hand skills, fabrication engineering, manufacturing project design and electrical and electronic engineering. Pupils will also gain an insight into other engineering occupations such as mechanical, automotive, electrical and electronic.

There will be a kit cost of £20 per student.

Access to FA Engineering

Edinburgh College accredited units SCQF Level 5 Midlothian Campus Tuesday and Thursday afternoon
S4 PUPILS

This course will provide the essential skills required for entry into the Engineering FA in S5. Pupils will develop the skills and knowledge necessary for mechanical and electrical engineering principles and will experience practical working on a range of engineering systems, including fitting, using hand skills, fabrication engineering, manufacturing project design and electrical and electronic engineering. Pupils will gain an insight into other engineering disciplines and will be supported with 'SI units and 'elements of engineering'. There will be a kit cost of £20 per student.

Engineering Academy: HNC Engineering Systems

S5&6 SCQF Level 7 Midlothian Campus Tuesday, Thursday & Friday afternoons

This is a 2 year course which allows you to start your engineering degree whilst you are still at school. The Academy is a joint project with Edinburgh College and Edinburgh Napier University and provides an opportunity to build knowledge and practical skills alongside academic study. On successful completion you will gain an HNC in Engineering Systems SCQF level 7.

Foundation Apprenticeship in Engineering

Foundation Apprenticeship SCQF Level 6 Midlothian Campus Tuesday, Thursday and Friday afternoons
S5 PUPILS ONLY

Suitable for pupils going into S5 with strong mathematical ability who are capable of learning at SCQF Level 6 and interested in a career in Engineering. The course covers mechanical, electrical, pneumatic and hydraulic systems. The level 5 'Access to FA' course will give the required support and skills if taken in S4. Two year course. Students undertake an extended work placement in year two.

Our Health Professions & Social Science faculty provides students with an opportunity to learn and develop their craft in a realistic working environment, under the guidance of industry experienced lecturers.

We work closely with employers to ensure our courses provide students with the relevant skills they need to progress to further study or employment.

Facilities

- Purpose-built Oral Healthcare Facility with Decontamination Room
- Replica Hospital Ward classroom with Transition to Home Room.
- Digital Skills Hub
- Infection Prevention & Control Room
- Virtual Reality which simulates the experience of a dementia patient
- Fitness/dance studio
- Fixed and free weight gym
- Sports therapy room
- Sports hall (Sighthill & Granton)

EC Student Stories

Gavin – Childhood Practice

After studying music at university, Childhood Practice PDA student Gavin explored a range of different careers before finding his calling in childcare and early learning.

“Working with children can be the most rewarding job in the world. No two days are the same and no two children are the same. Each day you’re helping to develop their young minds and are making an important lasting difference to their future – childcare is so much more than just playing with play dough and finger painting!”

After finishing a degree in music I tried a number of jobs in different industries but found my passion for childcare and early learning while working in a crèche. Having an opportunity to develop and guide children at a time when their brains are developing faster than ever is a huge and rewarding responsibility.

It is the type of job you don't mind getting out of bed for – in fact I look forward to getting out of bed and to seeing what the day will bring.”

“ I really needed the time to settle back into education, to prepare me personally and educationally, although I knew I wanted to progress to university. The tutors were very supportive and understanding of my learning style.”

Introduction to Early Years & Childhood Practice Level 4 Introduction to Early Years & Childhood Practice Level 5

SQA & Edinburgh College Units SCQF Level 4 & 5 Granton/Sighthill Campus Tuesday and Thursday afternoons

SENIOR PHASE PUPILS

The Level 4 and Level 5 courses provide an excellent introduction to further study in this exciting and fast growing Sector. Pupils can study towards level 4 or 5 SQA units, depending on ability. In addition pupils will also develop a range of essential meta-skills and study micro-topics linked to working with children and young people.

Introduction to Early Years & Primary Teaching - SQA Units

SQA Units SCQF Level 6 Online Tuesday and Thursday afternoons
S5 & S6 PUPILS

This course has been specifically designed to support students to develop the skills and understanding to progress on to study the HNC in Childhood Practice or Primary School teaching. The course will cover the key areas of how children develop and learn, how the adult supports this and theoretical approaches around these areas.

Health Professions & Social services

If you are looking to develop your knowledge in the areas of health, social care, dental nursing or pharmacy then we have a range of courses to support your ambitions. Courses range from entry level to HNC, with progression to employment or university for further study. The School of Health Professions and Social Services works closely with industry partners such as City of Edinburgh Council, Midlothian Council, Scottish Social Services Council (SSSC), General Dental Council (GDC), General Pharmaceutical Council (GPHC), NHS Lothian, Queen Margaret University and Edinburgh Napier University. These partnerships provide you with the opportunity to expand your skills and get a real insight into the sector. All Schools College Partnership courses offer progression pathways to full time programmes.

Does this suit me?

- Good interpersonal skills
 - Honesty
- Determination
 - Sociability
 - Adaptability

Potential occupations

- Pharmacy Technician
 - Clinical Support Worker
 - Dental Nurse
- Pharmacy Assistant
 - Dental Health Support Worker

Health and Social Care Academy

SQA & Edinburgh College Units SCQF Level 5 Sighthill/ Milton Road Campus Tuesday and Thursday afternoons
SENIOR PHASE PUPILS

This course provides an agile pathway to a career in Health Care Professions. It offers multiple options for progression to full time courses in Healthcare, Social Care, Dental & Pharmacy and supports development of essential digital skills for the Care Sector. The course offers job related practical experience which employers are looking for and provides transferable skills which can be applied across a range of disciplines. Pupils at Sighthill Campus will study in the Digital Care Hub replica ward setting with an infection prevention & control classroom, transition to home room and Virtual Reality Technology which enables pupils to experience life through the eyes of a dementia patient. Milton Road will have a satellite version of the Care Hub augmented with live streaming from Sighthill Campus.

Skills for Work Health & Social Care (Higher)

Skills for Work Higher SCQF Level 6 Sighthill Campus Tuesday and Thursday afternoons
S5 & S6 PUPILS

This course introduces pupils to the nature of health and social care work. It includes investigating the types of health and social care establishments that are available and the roles of care workers in these settings. Pupils will also be investigating the principles of good care practice and exploring what constitutes day to day care work, for example identifying people's needs and strengths and learning how care workers try to meet those needs through development and implementation of care plans.

Foundation Apprenticeship Social Services and Health Care

Foundation Apprenticeship SCQF Level 6 Sighthill Campus Tuesday and Thursday afternoons
S5 PUPILS ONLY

Suitable for pupils going into S5 who are capable of learning at SCQF Level 6 and interested in working within the care sector, primarily within Social Care. Two year course.
Students undertake an extended work placement in year two.

Social Science

From psychology, sociology and history to politics and criminology, we have a huge selection of Social Science courses at Edinburgh College. You can choose from introductory courses, Higher, NC or HNC.

Whichever course you choose, we will encourage you to ask questions and challenge assumptions about society. This will help you to understand the impact of policies and politics on everyday life.

Does this suit me?

- Enjoy reading
- Enjoy writing
- Comfortable with exams
- Good with numbers
- Enjoy group work and discussions

Potential occupations

- Teaching
- Support Worker
- Community Worker
- Police

Psychology Higher

Higher SCQF Level 6 Sighthill Campus Blended Learning (1 afternoon in college and 1 afternoon online) & Open Learning Options Tuesday and Thursday afternoons

S6 PUPILS ONLY

Studying Psychology will enable pupils to develop an understanding of the study of the human mind and behaviour in a range of contexts and to enhance their ability to use evidence to explain behaviour. The course will develop pupils' understanding of psychology as the scientific study of the mind and behaviour. As Psychology is both an evidence and research-based subject it provides pupils with the opportunity to conduct practical research. This will include working with human participants in accordance with recognised ethical standards.

Intro to Social Science

SQA & Edinburgh College Units SCQF Level 4 Sighthill Tuesday and Thursday afternoons

S4 & S5 Pupils

This course will introduce students to the social sciences. They will learn how to think critically and to understand human behaviour from different perspectives.

Access & Continuing Education

Access & Continuing Education (ACE) offers part-time and full-time courses designed to help you to move on to further learning or employment. You will get the most out of your college experience, whatever your learning needs.

ACE courses are taught in a supported environment. They aim to help you to return to education as an adult, make the jump from school to college, become more independent, gain skills and qualifications, and plan your next steps.

Introduction to College - EC Units

Edinburgh College accredited units SCQF Level 3 & 4 Sighthill, Granton, Milton Road & Midlothian Campus Tuesday and Thursday afternoons

SENIOR PHASE PUPILS

These courses are for pupils thinking about coming to college after they leave school and who have a barrier to learning or receive learning support at school

The aim is to give pupils a positive transition experience and to assess their suitability for a course at college. A wide range of practical and classroom-based subject areas is covered. This gives pupils a broad experience of the college environment, the topics they would learn about on our full-time courses and a general taste of student life.

Courses are taught in a supported nurturing environment. Pupils will work as part of a group and learn new ways of engaging with other people, whilst benefitting from a transition from school to college. This course lasts 18 weeks.

Introduction to College - EC Units

Edinburgh College accredited units SCQF Level 1 & 2 Milton Road or Sighthill Campus Tuesday and Thursday afternoons

*The level 1/2 course is specifically aimed at pupils who attend special education, or receive significant levels of support in a mainstream schools. This course lasts 18 weeks.

The Tourism, Hospitality & Business faculty provides students with an opportunity to learn and develop their knowledge & practice in a realistic working environment, under the guidance of industry experienced lecturers. We work closely with employers to ensure our courses provide students with the relevant skills they need to

progress to further study or employment. The Faculty covers a wide range of subject areas including professional cookery and hospitality, retail and events, travel and tourism, English for speakers of other languages, hairdressing and beauty, business and finance, and modern languages.

Facilities

- Two commercial training restaurants
- Wella approved centre of excellence for hairdressing and barbering and commercial training salons.
- Professional beauty training salons and spa facilities
- Simulated air craft training facility for cabin crew and purpose built check-in area
- Student-run retail enterprise
- Professional training kitchens

EC Student Stories

Scott – Human Resource Management

Scott came to college to change his career following an injury which prevented him from working in his previous role.

Following three years of study, he graduated with a HND in Human Resource Management and is working in NHS Education for Scotland's HR team.

“Returning to education with three children and a mortgage seemed crazy yet, it was the best option I had. The best thing about studying at Edinburgh College was the culture and the people. The course and the teaching were centred on the students, which made learning effective and enjoyable. It created a cohesive team-like environment in which I made many friends.”

Jamal, Hope and Jorge – Professional Cookery

Three Professional Cookery students proved they can handle the heat of the kitchen after picking up medals at a national competition just four weeks into their new course.

SVQ Professional Cookery students Jamal Abdul Mora, Hope Tasara, and Jorge Rodriguez Grana won gold, silver and bronze respectively at the Major Series 2019 competition held in Paisley.

As a gold winner, Jamal will head to the Major Series national final taking place in London next year, where he will represent Scotland. To get there, Jamal wowed the judges with his chicken roulade served with mushroom jus.

Jamal's classmate, Hope, won a silver medal in the street food category – she was tasked with preparing chicken fillets with a pak choi salad. Fellow student, Jorge claimed third place in the pasta challenge. Fresh pasta was something Jorge had never made prior to the Major competition, demonstrating how incredible an achievement claiming his bronze medal is.

ESOL & Modern Languages

If your first language is not English, you can study ESOL courses at college. Our courses will help you to improve your English language skills for doing your schoolwork as well as offering ESOL qualifications at National 3, National 4, National 5 and Higher. We will assess your level of English to find the right class for you.

employers. What's more, you will build transferable skills you can apply to any career. Our SCP courses offer the possibility to gain a qualification in modern languages, ranging from National 5, Higher and Advanced Higher (in some languages).

The purpose of the National 3 and 4 courses is to help pupils who are struggling with school work because of their English language level and the SQA units are a good way to measure progress. The National 5 and Higher courses, as well as helping with school work, offer the chance to get qualifications which allow you to progress to mainstream college courses or university

Our after-school SCP ESOL courses will include options to study at Drummond High School in the city centre, but we are also offering online courses which will include digital classrooms and open learning.

Learning a modern language will prepare you for exciting opportunities in tourism, international business, government, teaching and further vocational study. Here at Edinburgh College, you can study French, Spanish, Italian and German. You will learn language skills that are valued by

Hair & Beauty

Edinburgh College offers a range of courses, working in a live, realistic environment in our professional training salons to get you ready for a career in hairdressing, beauty or complementary therapies. You will gain real work experience, learning on the job and developing your hairdressing and beauty skills at our state-of-the-art salons on campus using top industry brands including Elemis, Dermalogica and Wella.

Hairdressing and beauty is one of the fastest growing industries in the UK. Whether you choose to work in a salon or start your own business, Edinburgh College's training salons are designed to give students the best experience to ensure they are fully competent for the industry. Students participate in our evening employability salons performing the latest treatments and services using prestigious products that are well known in the industry. Our hairdressing, barbering and beauty students continually work closely with our local communities. We offer a variety of services in our salons to groups and individuals from a range of charities and care providers. All Schools College Partnership courses offer progression pathways to full time programmes.

VTCT Level 1 Extended Certificate in Hair and Beauty Skills (VRQ) (SCQF Level 4) progression to Level 2 Certificate in Hair & Beauty Skills (Semester 2) (SCQF Level 5)

VTCT (Internationally recognised) SCQF Level 4 & 5 Granton/ Milton Road Campus Tuesday and Thursday Afternoons
S4 & 5 Pupils

This course provides an introduction to a variety of skills required for the Hairdressing and Beauty industry. By developing these skills learners will have a greater insight into each discipline enabling progression to their chosen field within the industry. Depending on ability, learners can study at SCQF level 4 or 5 and gain essential practical experience in our professional salon environment and academies with our high-end product companies and equipment. Alongside this learners will also have the opportunity to work in our employability salons, which will further enhance employability prospects. Edinburgh College is the first flagship Vocational Training Charitable Trust (VTCT) College in Scotland. This professional recognition reflects the exceptional standard of facilities and training. Working with peers in the college environment gives learners the opportunity to see the progression routes that are on offer within the two disciplines and the opportunity to gain feedback from the pupil that are currently on these programmes.

There will be a kit cost of £60 per student. Applicants will be required to complete a mood board as part of the application process.
